- Self-taught
- Empathy And Communication
- Proactive

LANGUAGES

SPANISH	Native
ENGLISH	High
PORTUGUESE	High

PROFILE

Software developer passionate about programming and creativity, with experience in HTML, CSS, Java, Python, and databases. Currently studying Web Application Development (DAW), I have created personal projects such as a video game, combining logic and innovation. I aim to grow professionally and contribute my enthusiasm to projects that make a difference.

EXPERIENCE

FREELANCER

Madrid (2023 - Present)

Several years of experience developing web projects, such as MagnarWarGames, an information platform, and custom websites for content creators. During this time, I have worked on both front-end and back-end, using technologies such as HTML, CSS, JavaScript, Node.js, Tailwind, and .NET, as well as managing databases and cloud deployments. I also integrate AI-powered tools into my workflow to improve efficiency, automate repetitive tasks, and enhance the overall quality of my projects, ensuring faster delivery and more innovative solutions

INTERNSHIP

Madeira Unipartner (3 months)

Participated in a large-scale project, collaborating on the development and optimization of solutions. Additionally, I created a small internal web system for managing vacation requests.

EDUCATION

HIGHER NATIONAL DIPLOMA – WEB APPLICATION DEVELOPMENT (DAW) (2023 - 2025)

CEAC FP, Madrid

HARD SKILLS

- **Programming languages:** Java, Python, Node.js and .NET
